

Guia de Atualização

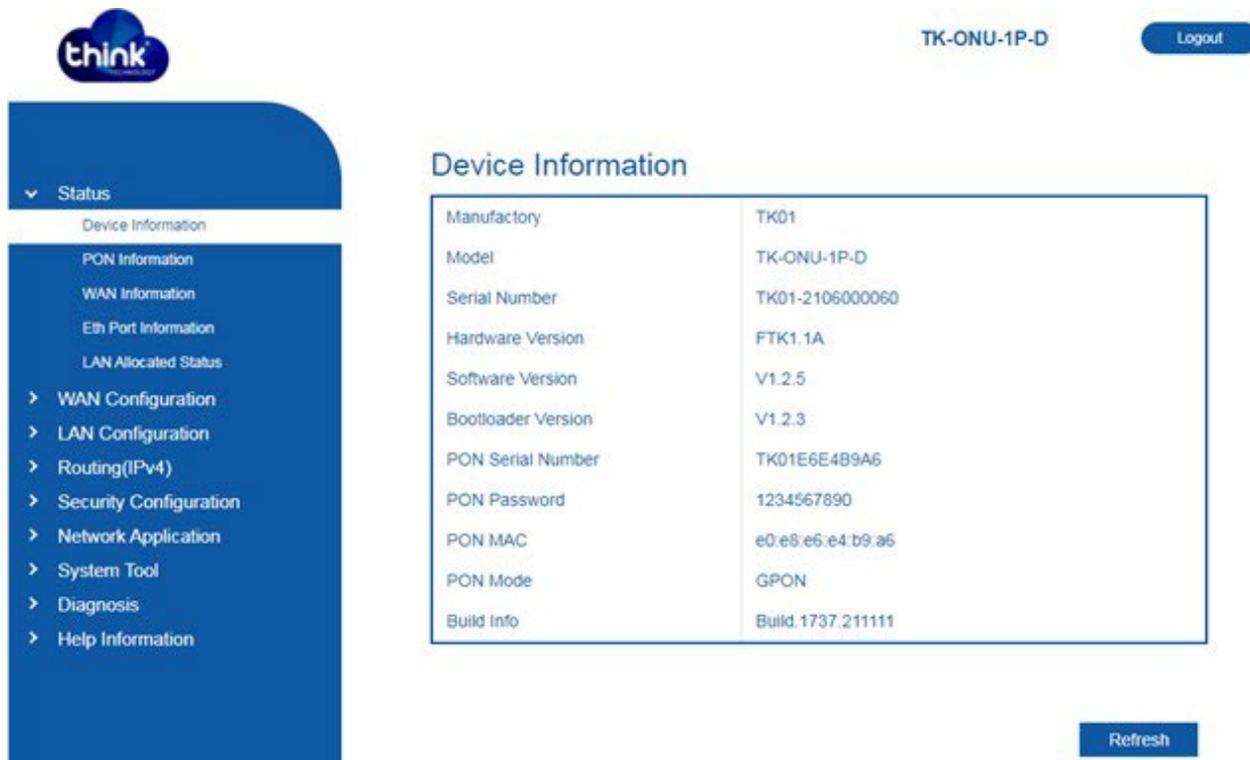

TK ONU IP-D

Informações sobre atualização:

- Temos duas versões de atualização para modelo TK ONU-1P DUAL; Cada versão tem a sua atualização;
- Pode ser identificada pela interface WEB;
- Abaixo segue a especificação para atualização para cada versão; Os arquivos para atualizações estarão disponíveis em nosso site.

Atualização da ONU com interface WEB abaixo

The screenshot shows the ThinkOptima web interface for a TK-ONU-1P-D device. The left sidebar contains a navigation menu with the following items: Status (expanded), Device Information, PON Information, WAN Information, Eth Port Information, LAN Allocated Status, WAN Configuration, LAN Configuration, Routing(IPv4), Security Configuration, Network Application, System Tool, Diagnosis, and Help Information. The main content area displays the 'Device Information' table:

Manufactory	TK01
Model	TK-ONU-1P-D
Serial Number	TK01-2106000060
Hardware Version	FTK1.1A
Software Version	V1.2.5
Bootloader Version	V1.2.3
PON Serial Number	TK01E6E489A6
PON Password	1234567890
PON MAC	e0:e8:e6:e4:b9:a6
PON Mode	GPON
Build Info	Build.1737.211111

A 'Refresh' button is located at the bottom right of the table.

- Para a ONU com interface WEB acima, o firmware correto para a atualização é **FD511G_F_So8S_V1.2.6_220118_X157_WB**, segue o passo a passo para a atualização:

The screenshot shows the 'Upgrade the software' page in the ThinkOptima web interface. The left sidebar navigation menu is expanded to 'System Tool', which includes: Account, Login Timeout, Reboot, Configuration File, Firmware Upgrade (highlighted with a red box), and Led Control. The main content area features a 'Firmware File' input field with a file selection button labeled 'Escolher arquivo' (highlighted with a red box) and the text 'Nenhum arquivo escolhido'. Below the input field is an 'Upgrade' button (highlighted with a red box).

The screenshot shows the 'think TECHNOLOGY' logo on the left and the device model 'TK-ONU-1P-D' on the right. A navigation bar contains 'Status', 'Network', 'Security', 'Application', 'Administration', and 'Help'. The left sidebar lists 'Device Information', 'Network Interface', and 'User Interface'. The 'Device Information' section is active, displaying a table of device details.

Model	TK-ONU-1P-D
Serial Number	TK01-2007029547
Hardware Version	HZ650.1A
Software Version	V3.0.6-I157
Boot Loader Version	V3.0.4-I157
PON MAC	e0:e8:e6:2a:38:96
PON Mode	EPON
Build Info	Build.1133.201218

Buttons for 'Help' and 'Logout' are visible on the right side of the page.

- Para a ONU com interface WEB acima, o firmware correto para a atualização é **FD511G_Z_So8S_V3.0.7_210908_11559_X000_WB**, segue o passo a passo para a atualização.

The screenshot shows the 'think TECHNOLOGY' logo on the left and the device model 'TK-ONU-1P-D' on the right. The navigation bar highlights 'Administration'. The left sidebar lists 'User Management', 'System Management', 'Diagnosis', and 'Led Control'. Under 'System Management', 'Software Upgrade' is selected and highlighted with a red box.

An information icon (i) is displayed with the text: "The device will reboot after upgrading."

The main content area contains a form with the text "Please select a new software/firmware image". Below this text is a file selection input field with a "Choose file" button. Below the input field is an "Upgrade" button. Buttons for "Help" and "Logout" are visible on the right side of the page.
